

North Hampton, NH
Seacoast H.O.G. Chapter
Ride Ratings

A – This ride is an introduction to group riding. These small group rides would be leisurely paced on mostly back roads. They would typically be about 1 to 1 ½ hours long with no rest stop. An ice cream ride or short lunch or dinner ride would be an example. They would be canceled for inclement weather.

B – This ride is usually the most popular and attracts a larger group. It is typically moderately paced and could include highways, winding roads and /or small towns. They could last for several miles and hours depending on the destination but would have one or two rest/gas stops. They would usually be canceled or delayed for extreme weather but may go in light rain.

C – This ride is for the more experienced rider. It is typically a full day of riding with limited stops. It would include more aggressive riding, which could include highways at posted speed, challenging roads and/or cities. It would be canceled only for extreme weather conditions.

Our rides are led with you in mind.

Come prepared and know your limits. Don't hesitate to inform your lead road captain of any problems and know we will never leave you stranded at the end of a ride.
